TALKING IT OVER
JUST THE TWO OF US

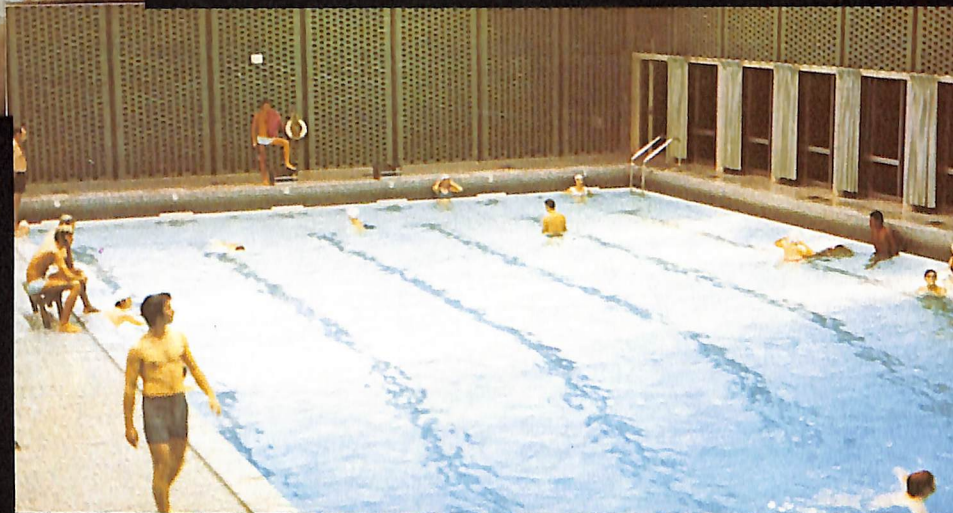

WORKING TOGETHER DAY BY DAY

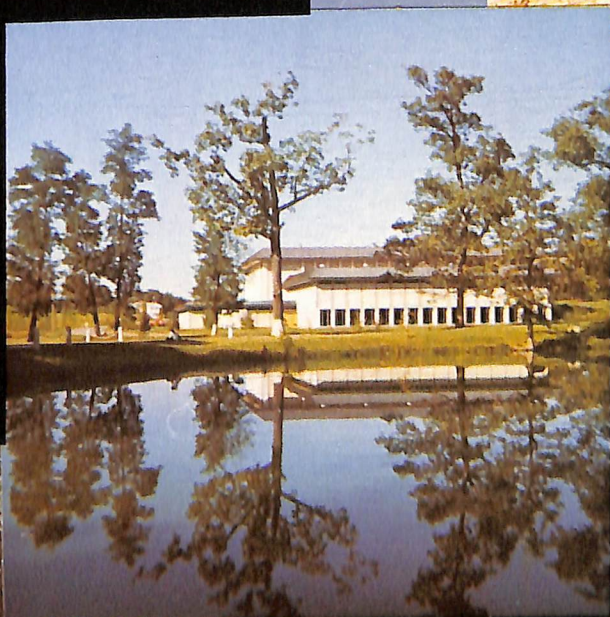

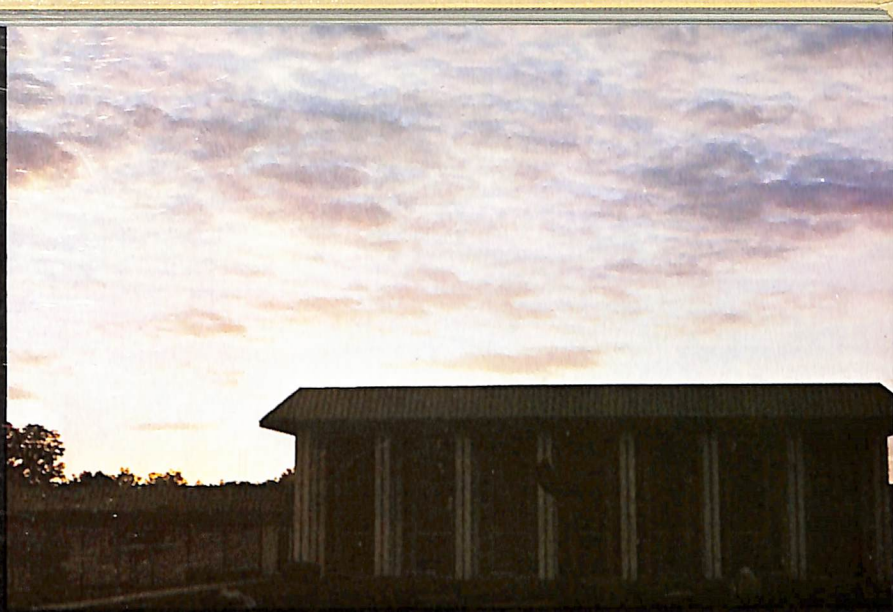

AND WHEN THE EVENING COMES
WE SMILE

SO MUCH OF LIFE AHEAD

WE'LL FIND A PLACE
WHERE THERE'S ROOM TO GROW.

AND YES,
WE'VE ONLY JUST BEGUN.

ADMINISTRATION

The rapid expansion of both the student body and the curriculum of your Community College has been a most gratifying experience for the Trustees of Lewis and Clark.

To those students who are sophomores--so are your Trustees. This is our second year of operation.

To those students who are freshmen--the Trustees join you, in that the 1971-72 school year is our first full year on our own campus.

The Trustees have a common bond, also, with the part time student, in that the time spent on school affairs often seems to exceed that time spend at the business of making a living.

You can be assured that the Trustees of your Community College are proud of you, our students. We take great pleasure in the thought that we are playing a small part in opening the doors of an educational institution where you may learn and have good fellowship.

The large enrollment for 1971-72 tells us that the College is needed. As students, you are demonstrating your willingness to avail yourselves of an opportunity offered to you by your parents, friends and neighbors, and open to every citizen.

As Trustees, we congratulate you, our student body.

Fellow learners,

We've only just begun to put into service and action one of the finest dreams of America: equality of opportunity to learn and progress to the fullest extent of our individual capacities, and to partake of the benefits of society to a like extent. That's democracy.

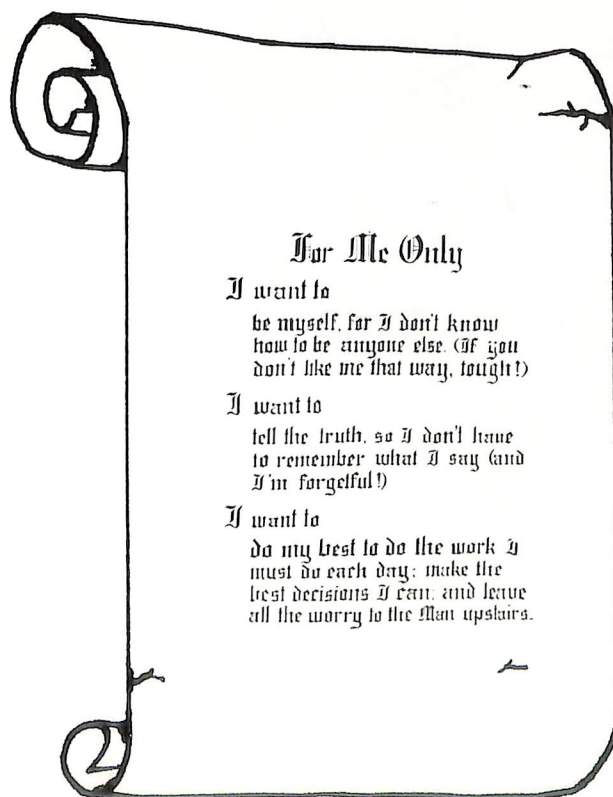

This is what Lewis and Clark Community College is all about. Democracy in education. We are just learning how to go about it. We have only just begun to walk, but we'll learn to run - and to fly. We are impatient, but we must work together, share those new horizons, and watch the signs.

We'll make mistakes. Except for the mistakes of not trying, these can be corrected. It is good to be a part of the effort.

BASKETBALL

Basketball for the 1971-72 season begins the history of all athletics at Lewis and Clark Community College. The "Bucks" faced one of the roughest schedules in the area with most of their games away. Their lack of height may have been a factor in their 4 and 20 season. Being a first year Junior College proposed some problems but the talent was there, it just couldn't be put together. All in all, we salute the Lewis & Clark Bucks, head coach Ron Coleman, and assistant Coach Larry Hinton for their efforts.

I.M. FOOTBALL

Flag football "kicked off" the intramural program at Lewis & Clark for the Fall '71 Semester. There were eight teams with over one hundred male students, staff and faculty members that participated. Individual trophies were given to the winning team, who went undefeated during the season.

I.M. BASKETBALL

The beginning of a new Semester also brought about the beginning of another intramural sport at LCCC. Basketball saw a good turnout of students, faculty and staff. Again, over 100 males participated. The program consisted of eleven teams playing three games a night on three nights of the week. The season started January 31 and ended on March 13.

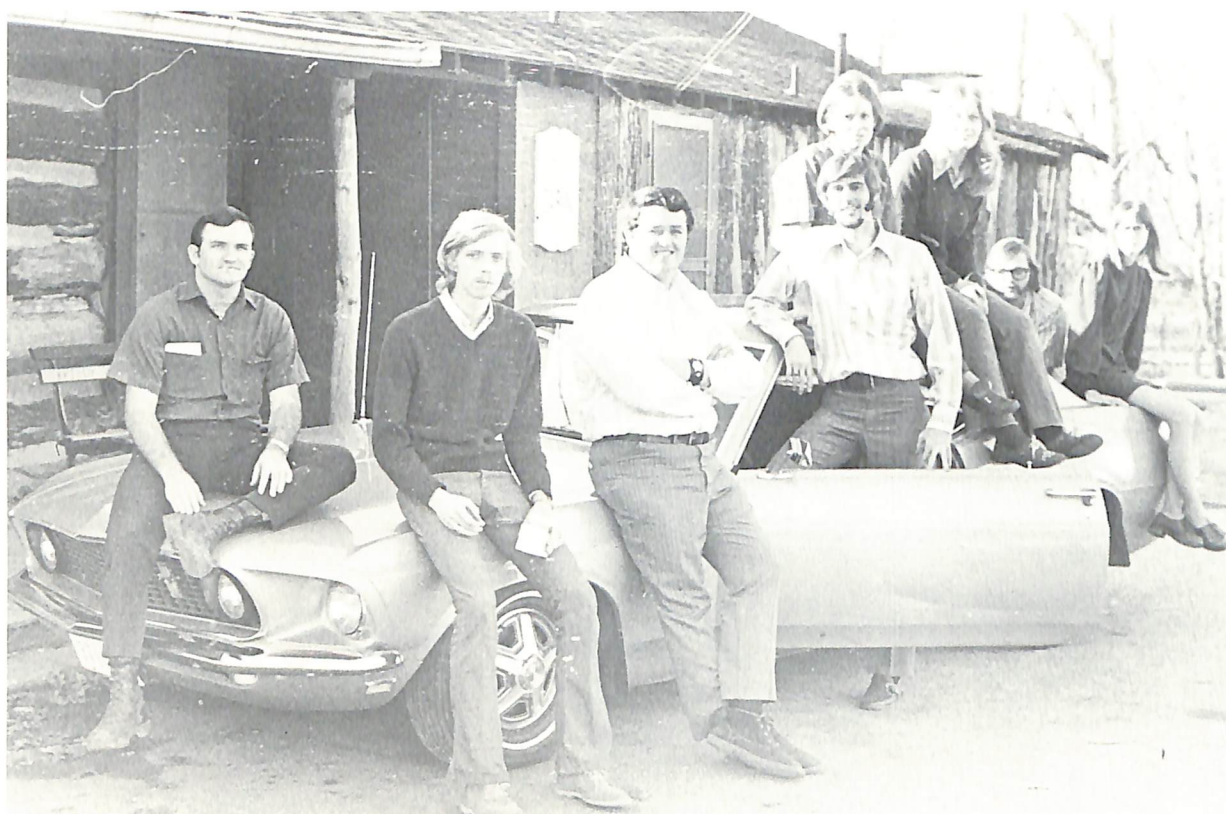

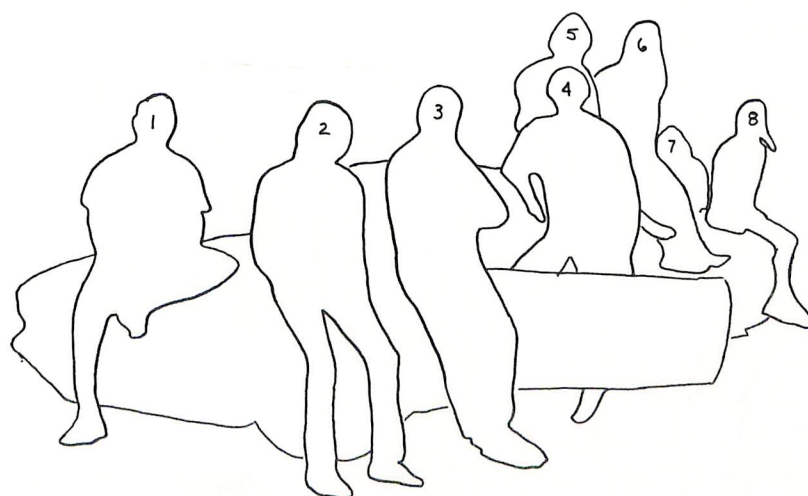

The fire science class observed a mock fire run at Scott Field, complete with dummy victim. Light water or foam is being used to put out the fire.

JOYS OF BEING AN EDITOR

Getting out this book is no picnic.
If we print jokes, people will say we are silly;
If we don't they say we are too serious.
If we clip things from other books,
We're too lazy to write it down ourselves;
If we don't, we are stuck on our own stuff!
If we stick close to the job all day,
We ought to be out hunting up news.
If we do go out and try to hustle, we ought to be on the job in the office.
If we don't print contributions, we don't appreciate true genius;
If we do, the book is filled with junk.
If we make a change in a fellow's writeup
We are too critical, and if we don't we are asleep!
Now, like as not, someone will say we swiped this from some other book.
WE DID!

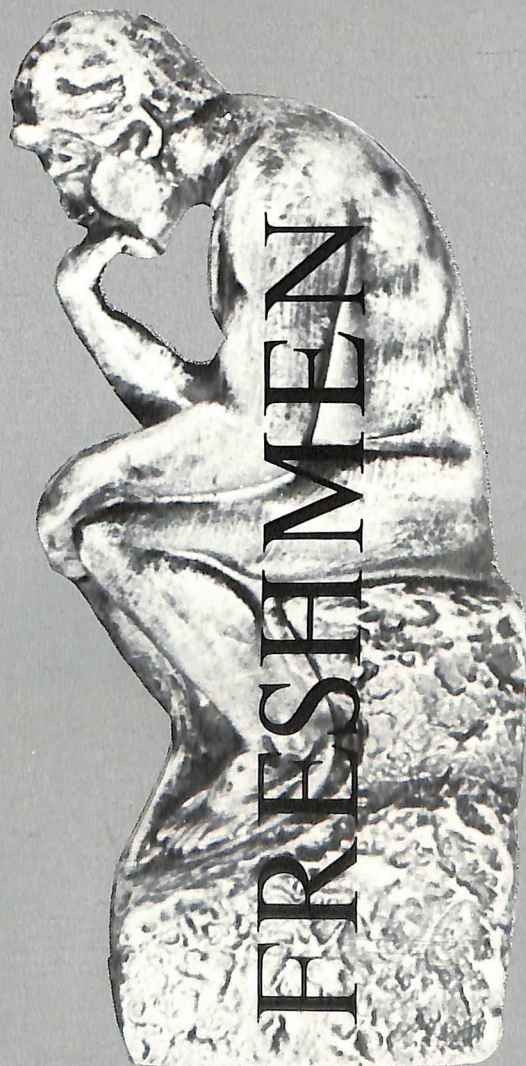

To become involved in an activity can be fun. There are a wide range of opportunities open for each and every student at Lewis & Clark; the Yearbook is one. In just a few pages we have tried to tell the story of this year. We have a lot to be proud of at Lewis & Clark.

Once upon a time many years ago Meriwether Lewis and William Clark, two buckskin clad trail-blazers, reached the Pacific Ocean. These two explorers started their expedition from St. Louis, Mo. in May, 1804, and finally reached the Pacific on November 7, 1805.

However, it's another expedition which our two latter-day inquisitors made which we want to tell about.

Our story starts late in the year of '71 where we find Bill and Meriweather dinging-around in the woods sometime after their famous expedition. In the next several pages we will illustrate a few of the sights which they saw on that memorable day in the territory that is now known as Lewis & Clark.

The next several pages have been produced so that you may color these sights as you like. However keep in mind that '71 is the birth of this territory, and since most things are born at an early age, most everything is in the diaper stage.

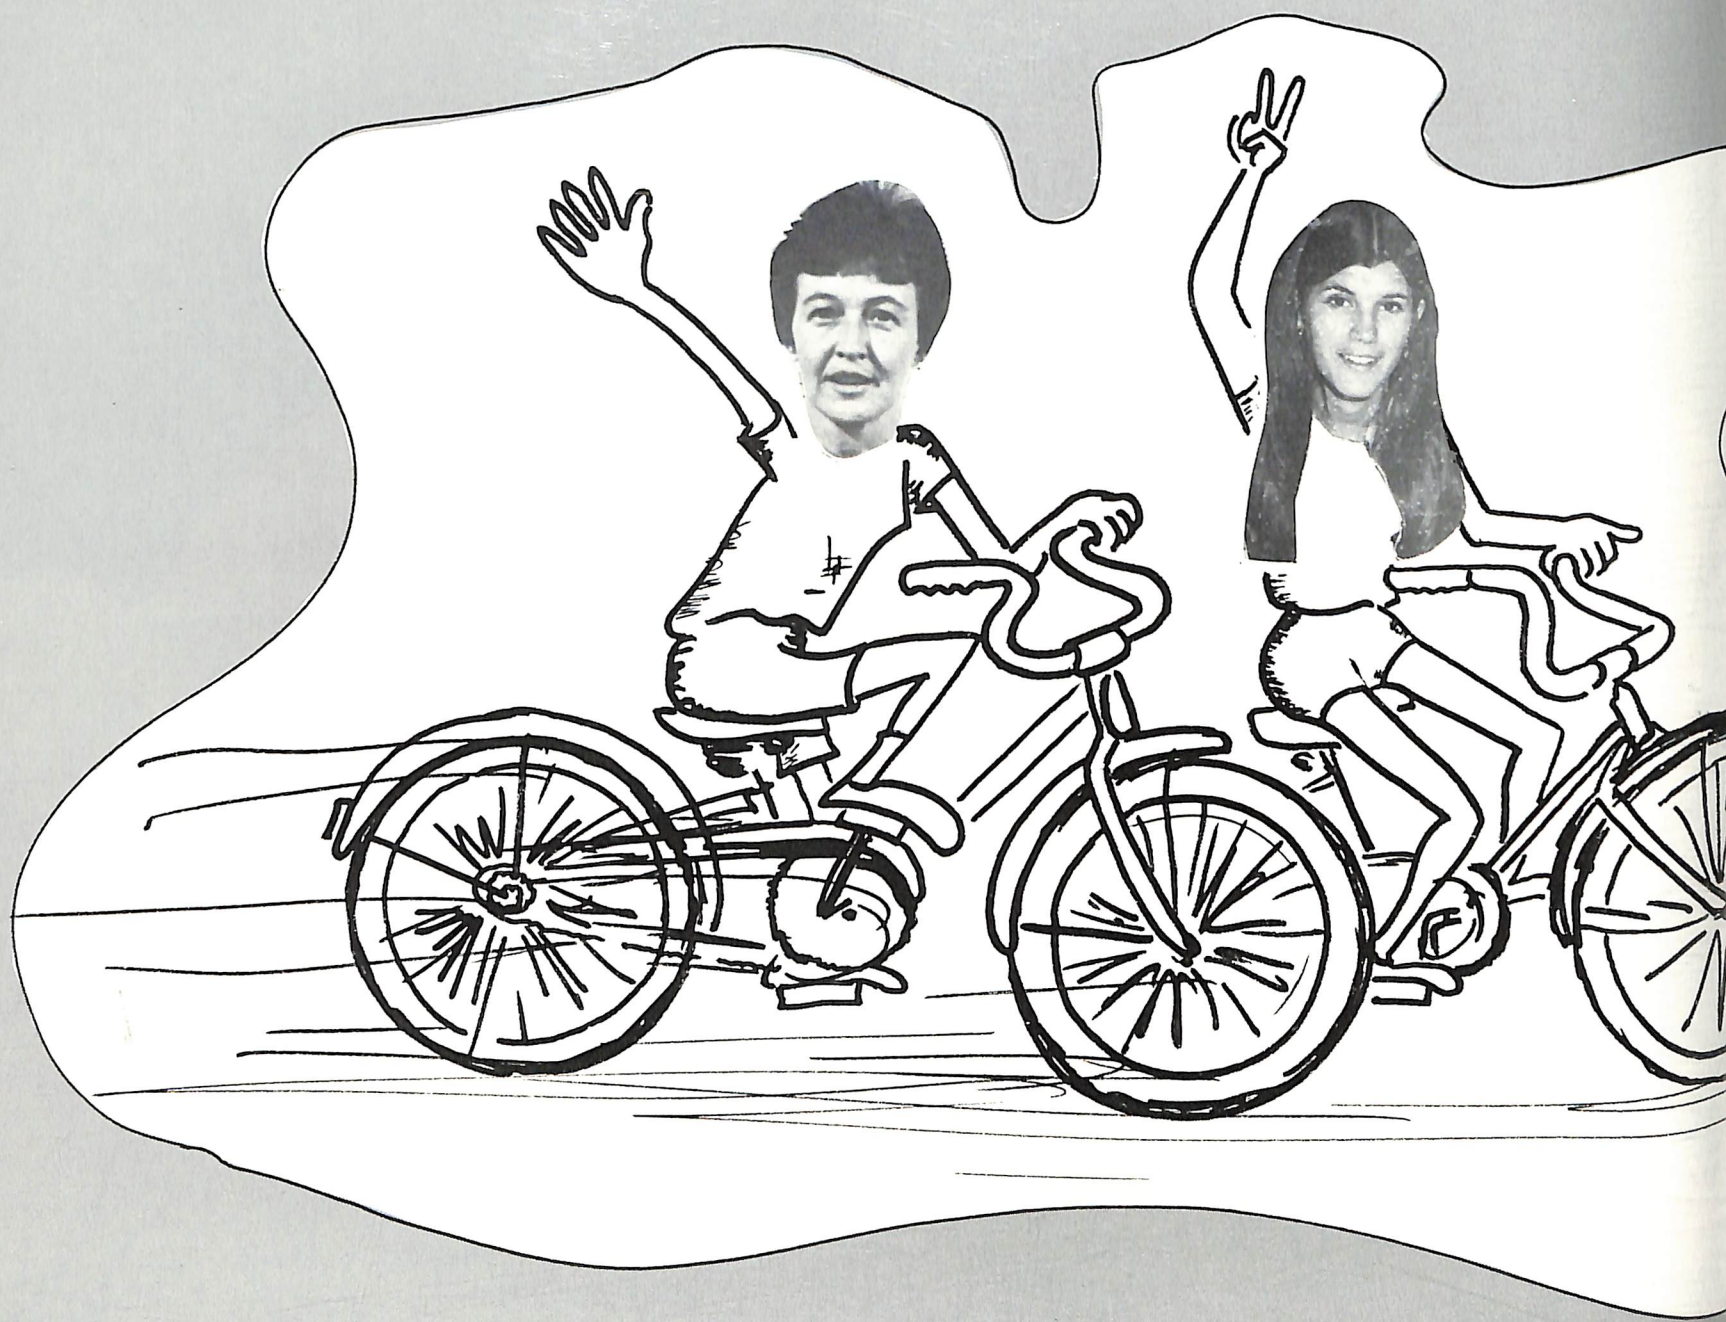

AS THE LEWIS & CLARK
EXPEDITION STARTS . . .

UH, BOYS THAT'S THE

HERE'S ONE THAT IS ILLEGALLY

OUR TWO COMEDIANS PEEK IN A

If you don't believe it
just ask Mr. McAllister.
He and Noah discussed
it many times on rainy
days.

STILL YOUTHFUL AND
INTERESTED IN THE
FUTURE.

THEY MAKE IT KNOWN WHO
THEY WANT
FOR THE U.S. '72 ELECTIONS.

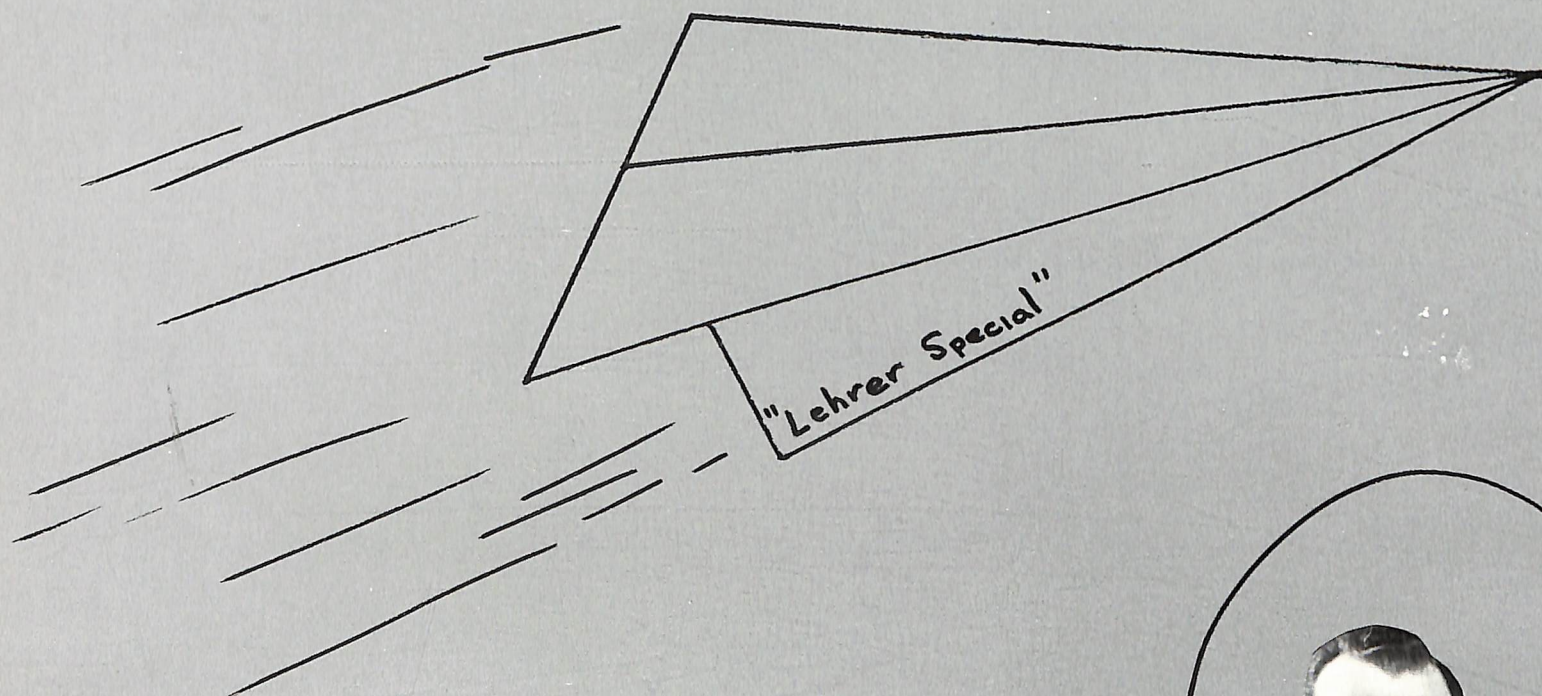

Well it's my

THEY DIDN'T BELIEVE IT
UNTIL THEY SAW IT FOR THEM-
SELVES.
